

All-Terrain

Versatile & Tough

\$525
Suggested Retail Price

The versatile **Vaquero** is an all-around detector designed to do just about anything a detectorist could want. Named after the Spanish word for "cowboy," the **Vaquero** lives up to the hard-working, take-on-the-tough-job reputation that made cowboys in the Old West famous. What enhances the **Vaquero's** versatility is its 3-3/4" turn manual-adjust ground balance, which gives the detectorist the capability to set up the machine to suit mineralization conditions and personal treasure-hunting style.

Features

High Output Technology	One Drop-In 9-Volt Battery
MicroMAX Housing	9" x 8" Concentric Coil Design
VLF 14.3 kHz Frequency	Adjust
Frequency Shift to 14.5 kHz and 14.7 kHz	VCO All Metal Mode
Push Button Probing	Weight: 2.2 lbs.
	Lifetime Warranty

We've also added an ED180 discrimination feature for filtering trash from treasure, a push-button pinpoint for easier digging, and a VCO-style all metal operating mode—features that give the **Vaquero** its "do anything" power. With a weight of just under 2.2 pounds, the flexibility to use any Lobo SuperTRAC or Teton accessory coils, and its lifetime warranty, the **Vaquero** is the ultimate go-anywhere treasure tool.

The 5.75 coil is a 5^{1/2}-inch Concentric-style coil. It has been designed to provide great discrimination when working in trashy areas. The 5.75's smaller footprint will find the treasures without having to worry about most masking effects. When combined with the powerful circuitry of the Teton, it will allow you to cherry pick the trash-infested sites.

\$129.00 including scuff

The 5.75 Concentric and 12x10 wide-area coils are designed to work with the Teton, Lobo SuperTRAC, Vaquero and Lobo detector. Much for more of this industry changing High Output Technology waiting soon.
